ClearRock

Predictive Index Open Workshop Series

2027 Schedule

All workshops are conducted from 9:30 – 11:30 am EST

Decode Workplace Behavior with PI

Boost self-awareness and drive productivity. Intended for anyone in the organization – from CEOs to frontline employees, this workshop enables participants to harness the science of PI's behavioral data to understand how people think and work. It can be a standalone experience, but it is also a **prerequisite for the other workshops listed below**.

- ➔ *January 12, 13, 14*
- ➔ *March 9, 10, 11*

Predict Candidate Success with PI Hire

Avoid costly hiring mistakes. This workshop is designed for executives, HR leaders, and people managers who want to objectively define role requirements, attract the right candidates, and hire with confidence.

- ➔ *January 19, 20*
- ➔ *March 16, 17*

Develop Effective Leaders with PI Inspire

Equip leaders with insights to boost retention and productivity. This workshop is designed for executives, HR leaders, and people managers who want to increase self-awareness, foster healthy workplace relationships, retain top talent, and lead more effectively.

- ➔ *January 26, 27*
- ➔ *March 23, 24*

Workshop Details:

You will receive login details upon registration. PI2 login credentials and a completed Predictive Index Behavioral Assessment are required for participation in the workshops. For additional questions, or to register for an upcoming workshop, please reach out to your ClearRock Client Relationship Manager listed below:
